

April 17, 2012

Board Members,

There is not enough business to warrant having a Board meeting this Thursday. The next scheduled meeting is May 3.

We are implementing a plan to have all the sewer lines cleaned in a four-year cycle, and we will have troublesome segments cleaned every year. The Board budgeted \$30,000 for this work. Last year we had ProPipe clean the westerly lines in Monte Verde, Highlands West, Poll Drive, Woodland Heights, Sierra Drive, Davis Drive and Gordon Creek Circle, in addition to the yearly cleaning of troublesome 'hotspots'.

This year, moving easterly, so far we had ProPipe personnel clean the lines in Highland Drive and adjoining streets. They also cleaned the troublesome segment that runs through Blair Larsen's hill between the intersection of Gordon Creek Circle and Wasatch Drive and into the meadow between Wasatch Drive and Uinta Drive. We have this cleaned each year because flow through this segment is sluggish, making it a 'hotspot' where debris tends to build up and block the line. In addition, ProPipe cleaned the main lines on Old Highway Road from Trapper's Loop and from Poll Drive, as they will do each year. They also cleaned the Monte Verde lift station and the lines in Trapper's Pointe. In the next week or so they will video the lines in Trapper's Pointe. Later, we will have ProPipe clean and video the lines in Rollins Ranch, for the first time.

AQUA Engineering plans to advertise the Force Main Replacement Project in the Ogden Standard Examiner on Friday, April 27 and again on Friday, May 4. The District will host a pre-bid meeting for potential contractors on Thursday morning, May 3, and will have additional meetings as needed in the following days. The bids will be opened on Friday morning, May 11, which will give AQUA time to evaluate the bids and have a recommendation for the Board for the May 17 meeting, at which time the Board will select the contractor and amend the budget for the work if necessary.

Please plan for the meeting May 3.

Dennis
