

May 1, 2012

Board Members,

We don't have enough new business to warrant having a Board meeting this Thursday, and we would likely have a problem attaining a quorum, anyhow, since three members are certain to be absent. The next scheduled meeting is May 17, and it is important to have a quorum that evening, since we should have the bids in for replacement of the force main that runs on the south side of Old Highway Road, and the Board will need to select the most reasonable bid for the project.

AQUA Engineering placed an ad in the Ogden Standard Examiner last Friday and will repeat the ad this Friday. We will host a pre-bid meeting at the office this Thursday morning at 10:00 for any interested contractors, and we will meet with other contractors as needed to review the project. Be advised, though, that since this is a relatively small project, we may have a problem obtaining bids.

Here is the text of the Ad:

This project includes construction of a 1300-foot length of 4-inch sanitary sewer force main HDPE pipeline and abandonment of the existing 4-inch ductile iron pipe force main. The project will include the construction of the site grading, and connections to existing finished sanitary sewer lines and other piping connections. The project will be constructed in the shoulder of SR 167 in Mountain Green and will require an encroachment permit from UDOT.

Beginning May 1, 2012, copies of the Project Manual and Plans will be available at the office of the Project Engineer, AQUA Engineering, Inc., at 533 West 2600 South - Suite 275, Bountiful, Utah 84010, for a nonrefundable fee of \$25. Copies may also be obtained from 1:00 PM to 5:00 PM at the MGSID office at 5455 West Old Highway Road, Mountain Green, Utah (Call ahead: 801-876-3416).

A Bid Bond in the amount of 5% must accompany each Bid. The Owner reserves the right to reject any or all bids, or any of the items in a bid. Only bids giving a firm quotation, properly signed, will be accepted. All bids are subject to applicable Utah laws and regulations. A non-mandatory, pre-bid meeting will be held at the Mountain Green Sewer Improvement District Office located at 5455 West Old Highway Road, Mountain Green, Utah to discuss the project on Thursday, May 3, 2012 at 10:00 AM local time.

Separate Sealed Bids for the Pressure Sewer Line Upgrade Project will be received at the Mountain Green Sewer Improvement District Office from Tuesday, May 1, 2012 until 10:00 AM local time on Friday, May 11, 2012, and then at said office bids will be publicly opened and read aloud. Hand delivery is accepted from 1:00 PM to 5:00 PM (Call ahead: 801-876-3416).

For additional information, contact AQUA Engineering Brad Rasmussen or Robert Rousselle (801-299-1327), or MGSID Dennis Baldwin (801-645-5636).
